

IWIS chains from SKF lengthen service life

Typical applications

IWIS chains are OEM replacement for most of the pharmaceutical industry's leading packaging machines. A partial list includes (alphabetically):

Alcan (GmbH)
Beck Packautomation
Bausch + Strobel
CFS (GmbH)
Econo Pak
Focke & Co.
GIZEH
Gerhard Schubert
Hans Paal
Huhtamaki
IWK Verpackungstechnik
Klockner Hansel
Klockner Pentapack
Mead Westvaco
Meypack
Multivac
Optima
Rovema
Skinetta Pac-Systeme
Uhlmann Pac-Systeme
Weyhmuller

OEM-quality grip and maintenance-free chains are ideal for pharmaceutical environments

Lengthen maintenance intervals, reduce costly downtime and improve operating safety with high performance IWIS chains from SKF.® High quality, engineered solutions for new designs or existing applications.

Gently transport foil- and plastic-wrapped packages

IWIS Grip Chains from SKF feature a unique tilt-back-action gripper with differing levels of spring force that gently grips, precisely positions and reliably transports a wide variety of packages – from foil bags and plastic-wrapped items to large sheet-type materials. All clamping elements are wear- and corrosion-resistant for long life. Chains delivered pre-lubed and ready to install.

Technical features:

- Single or double chain 1/2 x 5/16 inch to DIN 8187-1/ ISO 606
- Gripper with 1 or 2 tips, special design on request
- Retaining force is dependent on material conveyed
- Can transport chains/pin oven chains

IWIS grip chains feature a unique tilt-back-action gripper for precise, gentle positioning.

Maintenance-free chains never need lubricating

MEGAlife® maintenance-free IWIS chains from SKF are ideal for roller and conveyor applications in which lubrication access is limited or not possible. MEGAlife chains resist wear even at high speeds and loads – providing outstanding levels of fatigue and breaking strength. MEGAlife chains help keep drug processing areas clean, dry and free from chain lubrication contaminants. They are also superbly suited for hard-to-reach and enclosed areas.

Technical features:

- Available dry or with maintenance-free special lubricant
- Corrosion resistant
- Available as roller chain according to DIN 8187/ISO 606 for driving purposes or as conveyor chain with attachments and extended components
- Temperature range from -40° C up to +160° C

Pharmaceutical industry solutions

Bringing reduced operating costs and better profitability with...

SKF products provide optimum performance under the most demanding pharmaceutical industry applications, while meeting the most stringent requirements for sanitation and safety.

MRC

Marathon® Series Bearing Units

- Corrosion resistance
- Low maintenance
- Long operating life

Sealing Technology

- Pumps
- Gearboxes
- Specialty sealing systems

SKF Bearings

- Ball bearings
- Roller bearings
- Specialty bearings
- Hybrid bearings
- High temperature

SKF

SKF Linear Motion/Precision Technologies

- Linear bearings for packaging equipment
- Actuators for fast food cookers
- High-quality chain for conveying systems
- Ball transfers for material handling

SKF Maintenance Products

- Tools for bearing mounting/dismounting
- Lubricants
- Instruments to measure vibration, temperature, speed, oil condition
- Shaft and belt alignment tools

SKF Reliability Systems

- Asset management strategy and consulting
- Reliability maintenance solutions and service
- Mechanical maintenance services
- System installation and managing services
